Standard Print

*Multi-Color Print

Flat LIDS – with or w/o Straw Hole

Dome LIDS – with or w/o Straw Hole

2oz Parfait Insert

Picture is of a 9 oz Tall Cold Cup

with a 2oz Parfait Insert Covered with a clear lid

These biodegradable and compostable cold cups are made from NatureWorks polylactic acid (PLA), which is derived from corn. Meets the most stringent scientific requirements for biodegradability and compostability, and are ASTM D6400-99 certified for "compostable plastics". Light and strong as plastic.

* For drinks below 110F

* Store below 110F and away from heat, hot surfaces and direct sunlight

To distinguish our cups from plastic ones in municipal recycling/composting facilities, the phrases "Bicompostable" and "This cup is made from corn and is 100% compostable" are printed on the side.

Compostable PLANT FIBER HOT/COLD CUPS

INNER ITEM #	DESCRIPTION	CASE	PACKS
CU-SC-U2	2 oz. Fiber Hot Cup	2000	40/50
CU-SC-U4	4 oz. Fiber Hot Cup	1000	20/50
CPL-CS-9	LID – Clear 110F (No Hole) fits 4 oz. Cup	2000	20/100

CPL-CS-9

Microwave and freezer safe, can be used for both hot and cold items, fully compostable, sturdy and strong

Soak proof *Gluten Free. * has no plastic or wax lining

These Hot Cups handle hot liquids up to 220 Fahrenheit (moisture forms at the bottom for hot food items)

They are made from the wheat stalks and not from the food grain which stores the proteins and allergens. Please note, composting is required for biodegradation. These compostable cups will biodegrade within 30 days in a commercial composting facility and within 90 days in a home composting system.
