Biodegradable and compostable souffle cups are made from Nature Works polylactic acid (PLA), which is derived from corn. Our biodegradable souffle cups meet the most stringent scientific requirements for biodegradability and compostability.

They are ASTM D6400-99 certified for "compostable plastics". Light and strong as plastic. Are biodegradable for liquids below 110F.

Needs to be stored below 110F and away from heat, hot surfaces and direct sunlight.

Compostable PLANT FIBER HOT/COLD CUPS

ITEM #	DESCRIPTION	CASE	INNER PACKS
CU-SC-U2	2 oz. Fiber Hot Cup	2000	40/50
CU-SC-U4	4 oz. Fiber Hot Cup	1000	20/50
CPL-CS-9	LID – Clear 110F (No Hole) fits 4 oz. Cup	2000	20/100

Microwave and freezer safe, can be used for both hot and cold items, fully compostable, sturdy and strong

*Soak proof *Gluten Free. * has no plastic or wax lining*

These Hot Cups handle hot liquids up to 220 Fahrenheit (moisture forms at the bottom for hot food items)

They are made from the wheat stalks and not from the food grain which stores the proteins and allergens. Please note, composting is required for biodegradation. These compostable cups will biodegrade within 30 days in a commercial composting facility and within 90 days in a home composting system.
